The Circuit Court of Weakley had decided that neither the Legislature nor the Governor had power to set aside the registrations made under the Franchise law of 1866, and that all holding certificates under them are entitle to vote. The Commissioners of Registration appealed to the Supreme Court, which affirmed the decision of the Circuit Court. This will largely increase the number of voters-

GEORGIA.

ATLANTA, May 27 .- The Grand Jury found a true bill against J. Clark Swasee, editor of a newspaper at Macon, for a high misdemeanor. The bill is predicated upon an incendiary article which appeared in his paper some weeks ago, and is based upon that section of the code that forbids any person to circulate any writing that inculeates resistance to lawful authority, insurrection, or conspiring against citizera. After the death of Dr. Ayres, by a negro, near Savannah, Swasee published an inflammatory article, calling on Union men to organize for self defense. The penalty is imprisonment in the penitentiary from five to twenty years.

This morning four men at the Atlanta Rolling Mill, on opening an old shell, ignited the powder, when the shell bursted -killing them all.

MONDAY, JUNE 7, 1869,

A good story is told on two policemen up town, which, if true, ought to be perpetuated. It goes in this wise:

Justin front of Lithgow's foundry re-STEAM

"Try him again, he'll come to it," hopefully responded the other.

And then another peice of meat was thrown, and yet another and another, but the dog remained immovable. Presty soon the M. P.'s went up a little closer. The dog did not stir. A little closer yet, and their hands were upon him.

"Boob, he's cold!" ejaculated No. 1.

"H—Il, we're sold this time," responded No. 2. "The darned thing's iron! Let's go, partner. Mum's the word." And the dog was left. The strychnine hadn't worked.—Louisville Courter-Journal. The Princess d'Apsaxin, who was re-

TRUST SALES. TRUSTER'S SALE OF STORE-HOUSE

BOYS' FINE CLOTHING AND FURNISHING GOODS.

Patented August 8, 1865.

MANY THOUSAND OF THEM HAVE been tested during the past four years, and have proved a perfect success, as thoursands of certificates could be produced; but I deem it unnecessary, as the Pump will show for itself and prove all its qualities on examination. deem it unnocessary, as the Pump will show for itself and prove all its qualities on examination.

It is a Pump which is ultimately destined to rupercede all other Pumps now in use, for these simple facts: First, the cylinder is made of solid flint glass, and it undoubtedly will last one hundred years, and still be good as ever. Second, it will never give any bad tasts to the water, or rust it. Third, it will never wear out, as as to put the working part out of order. Fourth, the Funger working in glass, will last as long as five in iron or wood. Fifth, the valves are made of glass, and are so placed that it is impossible for them to get out of order. Sixth, the conducting pipe is manufactured of wrought iron, galvanized inside and out, making it perfectly free from rust. Seventh, no water stands in the pipe to get warm in summer or freeze in wieter, and requires no priming to start it. Eighth, it is the best hand fire engine ever invented. It will force the water from any common well or eistern to the top of the highest dwelling, at the rate of txenty galons per minute. Ninth, its whole construction is so simple and complete that renders it less liable to get out of order than any pump yet invented, and makes it the cheapest on the continent. When all its qualities are fully understood no one will be without it. It will save it cost in insurance, and many times save valuable property.

Having established a factory in the city of Memphis, Tenn., for the masufacture of these Pumps, we are now prepared to furnish them, at wholesale or retail, to all parties engaged or withing to mage it the business.

Prices for this Pump, Complete:
